

Tweaking Agency

Gimme Care — legal outreach to affiliate-farm operators (draft)

Client: **Gimme Care**

Date: **2026-07-06**

Flagged listings: **22**

[← All reports](#) · [Evidence report](#)

Attorney work product — draft only. Tweaking Agency prepared this for Gimme Care legal counsel. Do not send without review, jurisdiction check, and confirmed addressee/service.

Scope note: TrimRx and healthbenefit.vip are not implicated in the Gimme findings. We found no journal-parasite campaign and no verified redirect chain to `glp-1.healthbenefit.vip` for Gimme Care. That pattern is documented on **Amble** only. This pack targets the **third-party affiliate SEO / review-farm domains** (e.g. `dshafjk.com`, `taoaadt.com`) that use Gimme Care marks without authorization.

Purpose

Ready-to-customize demand letters and talking points to stop unauthorized use of **GIMME CARE** on indexed third-party pages that are *not* gimme.care. For findings and recommended legal steps, see the [evidence report](#) sections *What is happening*, *What legal can do*, and *Takedown script*.

As of July 6, 2026, we identified **22 indexed pages** on unrelated domains that use **Gimme Care** in titles and snippets to rank for GLP-1 / tirzepatide queries. Click destinations were **not verified** as TrimRx or healthbenefit.vip — counsel should pursue domain operators, hosts, and registrars first.

Recipients

1. **Site operators** — dshafjk.com, taoaadtd.com, and other domains in the CSV (WHOIS registrant once confirmed)
2. **Registrar / hosting abuse** — contacts for domains systematically publishing unauthorized Gimme Care review copy
3. **Google** — spam / misleading-content reports for representative indexed URLs

Evidence to attach

- [Brand impersonation evidence report](#)
- SERP exhibit screenshots (in report)
- CSV URL inventory (download from evidence report)
- Optional: screen recording of click path on worst affiliate-farm URLs (document actual destination)

Letter A — To affiliate-farm site operator (dshafjk.com / taoaadtd.com)

DRAFT — FOR COUNSEL REVIEW ONLY · Customize addressee per WHOIS before sending.

Re: Cease and Desist — Unauthorized Use of GIMME CARE Trademarks in Indexed Web Pages

Dear Sir or Madam:

We represent Gimme Care ("Gimme"), which operates the official telehealth platform at gimme.care. Gimme owns common-law and/or registered rights in the GIMME CARE mark in connection with GLP-1 weight-management telehealth services.

1. UNAUTHORIZED USE OF GIMME CARE IN GOOGLE SEARCH RESULTS

Gimme has documented multiple pages on your domain(s) indexed by Google that display GIMME CARE in titles, snippets, or page copy while the display URL is not gimme.care. Examples include paths on dshafjk.com and taoaad.com that use "Gimme Care" in headlines for semaglutide and tirzepatide review content. As of July 6, 2026, we have identified 22+ such indexed URLs. Gimme did not authorize this use. Evidence (SERP screenshots, indexed URLs) is attached.

2. CONSUMER DECEPTION

These pages are designed to capture consumers searching for Gimme Care GLP-1 services. They create a false impression that Gimme Care endorses, operates, or is affiliated with your site. Gimme Care is not affiliated with your domain(s).

3. LEGAL VIOLATIONS (NON-EXHAUSTIVE)

The conduct described above likely constitutes, among other things:

- Federal Lanham Act trademark infringement and false designation of origin (15 U.S.C. § 1114, § 1125(a));
- Unfair competition and consumer deception under state law;
- FTC Act § 5 unfair or deceptive acts or practices (15 U.S.C. § 45).

4. DEMANDS

On behalf of Gimme Care, we demand that you, within ten (10) business days of receipt:

- (a) Remove or disable all pages on your domain(s) that use GIMME CARE, "Gimme Care", or confusingly similar marks in titles, metadata, body copy, or URL slugs;
- (b) Implement controls to prevent republication of Gimme Care-branded SEO pages;
- (c) Provide written confirmation of takedown, including a list of URLs removed;
- (d) Preserve logs, affiliate agreements, and traffic-source records for pages referencing Gimme Care since June 1, 2026.

5. RESERVATION OF RIGHTS

Gimme Care reserves all rights and remedies, including injunctive relief, damages, attorney's fees where available, and complaints to Google, registrars, and the FTC. This letter is without prejudice to any claim or defense.

Respectfully,

[Attorney Name]

Re: Trademark Abuse — Unauthorized GIMME CARE Content on Customer Domain

Dear Abuse Team:

We represent Gimme Care (gimme.care). Your customer operates domain(s) hosting multiple indexed pages that use the GIMME CARE trademark without authorization to rank for GLP-1 telehealth queries.

Representative infringing URLs are listed in the attached inventory. Gimme Care did not authorize this use. The pages mislead consumers into believing they are affiliated with our client.

We request that you:

- 1) Suspend or remove the infringing URLs listed in our attachment;
- 2) Notify the registrant of the trademark complaint;
- 3) Confirm action taken within 10 business days.

Enclosures: URL inventory, SERP exhibits, evidence report excerpt

[Attorney signature block]

Google spam report — talking points (internal)

Use when filing misleading-content / spam reports for sample URLs from the CSV:

"These indexed pages use 'Gimme Care' in the title and snippet but are hosted on [dshafjk.com / taoaadt.com], not the official site gimme.care. Gimme Care did not authorize this content. The pages appear to be auto-generated affiliate review spam designed to intercept branded searches. Request removal or demotion from Google Search for the attached URLs."

Next steps checklist

1. Run WHOIS on dshafjk.com, taoaadt.com, and worst offenders in CSV
2. Serve Letter A to site operators if WHOIS contact is valid
3. File registrar / hosting abuse complaints (Letter B)
4. File Google spam reports for 3–5 sample indexed URLs
5. Monitor weekly for OJS journal-parasite pattern or healthbenefit.vip redirects (escalate to Amble-style TrimRx outreach only if evidenced)
6. Set 10-business-day follow-up calendar hold

Internal legal / competitive intelligence — not for publication. Evidence: DataForSEO expanded parasite SERP scan + paid-slot check (2026-07-06).
