Executive summary

The Wellness Company and **Jase Medical** prove prescription emergency kits convert via podcast/YouTube sponsorship, co-branded landing pages, and unique promo codes. TWC's [Turley Talks medkits LP](#) is the benchmark: community code, dedicated kit section, full Rx disclaimers.

Amble's edge: eight scenario-named kits (\$285–\$945), flat pricing, no membership fee, HSA/FSA eligible, dedicated LPs at `joinamble.com/medkits/*`.

Top 10 outreach priorities (next 30 days)

#	TARGET	WHY
1	Steve Deace Show	Active Jase sponsor (DEACE); Blaze ad sales
2	Alaska Prepper	35+ Jase videos; Panic Pack fit
3	God Family and Guns	300× Jase YouTube integrations
4	America Out Loud	TWC medkit LP + OUTLOUD code
5	Buddy Brown	TWC BUDDY \$30 off kits
6	City Prepping	Urban prep; agency email on file
7	Layne Fable	Jase travel partner; Mayday kit
8	MeatEater Podcast	Brand-safe outdoor; remote hunts
9	Fieldcraft Survival	Mike Glover; tactical prep
10	Expedition Overland	Overland travel; Mayday

Fix before scaling traffic: Repair empty “What’s included” CMS on kit LPs, remove NAD+/weight-loss testimonials, confirm Google Healthcare / Rx certification.

Pricing: Tier 1 vs micro influencers

Ben Shapiro is almost always far more expensive than a niche creator — sponsorship is priced on audience size, engagement, and network markup (Daily Wire, Blaze), not a flat per-read fee.

- **Tier 1 ballpark:** \$15K–\$50K+ per integrated podcast read (or \$25–\$80+ CPM on downloads)
- **Tier 4 micro ballpark:** \$500–\$5K per video/read, or affiliate-only
- **Volume discounts** exist on multi-episode bundles but do not erase the reach gap — one Ben read can equal 10–30 micro integrations in budget
- **Niche premium:** a 200K paramedic IFAK channel may charge more per view than a 2M commentary channel because buyers are purchase-ready

Recommended mix: 1–2 anchor Tier 1 deals for credibility + LP templates; parallel-test 8–12 Tier 4 creators for CPA and creative angles.

Micro / niche influencers (rows 62–76)

Run **in tandem** with Tier 1 anchors — faster tests, tighter message match, lower cost per integration. Import new CSV rows into the Survival List.

The Casual Preppers	The Casual Preppers Podcast	Just in Case	Accessible prep	\$25 off	thecasualpreppers.com sponsor page

Tier 4 priorities (parallel to Tier 1)

1. SkinnyMedic / PrepMedic — highest medical gear purchase intent
2. Doom and Bloom — physician credibility for compliant creative
3. Keep Your Daydream + Eamon & Bec — cheap Mayday travel tests
4. Homestead HQ + Prairie Homestead — commerce-ready audiences
5. The Casual Preppers — low brand risk messaging sandbox

Influencer manager playbook

1. Network expansion

90-day sequence: Weeks 1–4 proof-of-concept (Deace, Buddy Brown, Layne Fable, City Prepping) → Weeks 5–8 scale (Alaska Prepper, GFG, America Out Loud, Fieldcraft) → Weeks 9–12 brand-safe outdoor (MeatEater, Expedition Overland).

Outreach email template

Subject: Co-branded emergency med kit partnership – {Show Name} × Amble

Hi {Name},

We're Amble – physician-led prescription emergency kits (travel, viral season, field trauma, home prep). Jase and The Wellness Company already run integrations in your space; we think {Suggested Kit} fits your audience because {proof}.

We'd offer: dedicated co-branded LP, unique code {CODE}, \${X} off + free shipping, ready-to-record 60s host-read.

Open to a 15-minute call this week?

2. Offer & LP design (Turley model)

- Tier 1 podcasts: \$30–45 off + free shipping (match TWC)
- Tier 2 YouTube prep: \$25–30 off or 10% affiliate
- Tier 3 outdoor: \$25 off + native gear integration
- Tier 4 micro: 10–15% affiliate OR \$25 off + product seed

LP checklist: co-branded hero + code · 2–3 hero kits · price/HSA/FSA · how-it-works · Rx disclaimers · UTMs on all CTAs.

URL pattern: joinamble.com/partners/{host}-medkits OR joinamble.com/medkits/mayday-kit?ref={host}

3. Conversion strategy

- Never send influencer traffic to GLP-1 homepage — dedicated kit LP only
- Track intake start + purchase with partner_code
- Disclose 1–2 week fulfillment in ad copy
- Target LP → intake: 15–25% for prep audiences

4. Compliance

- No prevent/treat/cure disease claims or Disease-X fear copy
- Scenario language only: travel stomach, respiratory season, care hours away

- Executive approval for high-controversy hosts (Candace Owens, Gateway Pundit)

5. Measurement (90-day scorecard)

METRIC	RENEW IF
Code redemptions	≥ 10 in 90 days
CPA	$< 35\%$ of kit AOV (\$285–\$945)
Chargebacks	$< 5\%$

Cut rule: < 3 redemptions after 4+ reads $\rightarrow$ pause partnership.
