20 affiliate targets with emails, phones, and contact URLs for Google Sheet import.

Executive summary

This report ranks **20 prepper, survival-medicine, and preparedness-commerce websites** for Amble Rx med kit **affiliate partnerships**. It complements the [podcast/YouTube outreach list](#) (45 targets) by focusing on **sites and stores** with existing affiliate or advertising infrastructure.

Start here — top 10 outreach contacts:

1. **SurvivalBlog** — james@rawles.to Jase advertiser
2. **Doom and Bloom** — DrBonesPodcast@aol.com
3. **Survival Life** — affiliates@olympuspeakmedia.com
4. **The Organic Prepper** — pr@luthercompany.com
5. **City Prepping** — cityprepping@adhesivemedia.com
6. **Medical Gear Outfitters** — dietrich@medicalgearoutfitters.com
7. **Ask a Prepper** — support@askaprepper.com

8. **Survival Frog** — affiliate@survivalfrog.com
9. **Prepared Bee** — support@preparedbee.com
10. **Survivorpedia** — advertise@survivorpedia.com

How we ranked partners

SCORE	POPULARITY (1-5)	AFFILIATE FIT (1-5)
5	Category-leading reach, email list, or store volume	Competitor proof (Jase/TWC) + medical purchase intent
4	Strong niche authority or commerce	Clear kit angle; affiliate program exists
3	Mid-tier blog or store	General prep fit; may need education
2	Smaller or geo-limited	Niche fit only

Traffic figures are **directional** (public claims + third-party estimates), not audited analytics.

Outreach scripts

Use these as starting points. Personalize the {partner}, {kit}, and {code} fields. All outreach should route to a dedicated LP — never the GLP-1 homepage.

Email 1 — Initial affiliate inquiry

Subject: Amble emergency med kit affiliate partnership — {partner}

Hi {contact_name},

I'm reaching out from Amble — we make physician-led prescription emergency med kits for preparedness, travel, and field scenarios (Just in Case, Panic Pack, Ouch Pouch, and more).

Your audience at {partner} is a strong match: {one_sentence_fit}. Competitors Jase Medical and The Wellness Company already monetize this category in prep media; we think Amble is a compelling alternative because we offer scenario-named kits, flat transparent pricing (\$285–\$945), no membership fee, HSA/FSA eligibility, and free shipping.

We'd like to explore an affiliate partnership:

- Unique code: {code} (\${discount} off + free shipping)
- Co-branded landing page: [joinamble.com/partners/{partner_slug}-medkits](#)

- 10–15% commission on referred kit sales (or we can match your standard sponsored-post rate)
- Lead kit for your audience: {kit}

Would you be open to a 15-minute call this week to discuss placement options (sponsored article, email blast, sidebar, or affiliate link)?

Happy to send a one-pager and draft LP mockup in advance.

Best,
{your_name}
Amble Partnerships

Email 2 — Follow-up (day 7)

Subject: Re: Amble × {partner} — draft LP + kit one-pager

Hi {contact_name},

Following up on my note last week about an Amble med kit partnership for {partner} readers.

I've attached a quick overview of our {kit} kit and a mock co-branded LP concept. A few proof points your audience may care about:

- Physician-led intake — Rx only after provider review
- Eight scenario kits (travel, viral season, field trauma, home prep) vs. one generic antibiotic box
- No membership required (differentiator vs. some competitors)

If affiliate commission works better than a flat sponsored post, we're flexible — happy to start with a 90-day test and review redemption data together.

Open to a short call?

Best,
{your_name}

Email 3 — Store / affiliate-program signup path

Subject: Amble Rx med kits — new affiliate category for {partner}

Hi {contact_name},

I saw {partner} runs an affiliate program and wanted to introduce Amble as a potential new category partner.

We sell prescription emergency med kits (\$285–\$945 AOV) to US preparedness, travel, and outdoor audiences. Jase Medical has already validated demand in this niche; Amble differentiates with

scenario-specific kits and no membership fee.

Proposed terms:

- 10–15% commission per referred sale
- 30-day cookie (happy to discuss 60-day for email partners)
- Unique tracking URL + code {code}
- Product seeding available for editorial review partners

Can we apply through your program, or is there a direct partner manager I should speak with?

Thanks,
{your_name}

Internal call brief (15 minutes)

1. **Confirm audience:** US %, prep vs homestead vs medical, email list size
2. **Placement options:** Sponsored article, newsletter, sidebar, resource page, store category
3. **Offer:** \$30–45 off + free ship; 10–15% affiliate; 90-day test
4. **Lead kit:** Just in Case (general prep) · Ouch Pouch (medical/trauma) · Panic Pack (hardcore prep)
5. **Compliance:** No disease-cure claims; scenario language only; Rx disclaimer required
6. **Next step:** Send LP mockup + unique code within 48 hours of verbal yes

Offer matrix by site type

SITE TYPE	EXAMPLES	DEFAULT OFFER	LEAD KIT	PITCH ANGLE
Hard prep blogs	SurvivalBlog, Organic Prepper	\$30–45 off + 10–15% affiliate	Just in Case	Upgrade from generic Jase Case — scenario kits, no membership
Survival medicine	Doom and Bloom, Off Grid Medic, MGO	Co-branded LP + \$30 off	Ouch Pouch / Just in Case	Physician-led Rx beyond first aid / IFAK
Prep stores	Survival Frog, Prepared Bee, Practical Preppers	10–15% affiliate	Just in Case / Panic Pack	New high-AOV category (\$285–\$945)
Urban prep	City Prepping, Modern Survival Blog	\$25–30 off	Just in Case	Medicine cabinet before urgent care wait

Co-branded LP checklist

1. Hero: "{Partner}'s community saves \${discount} on Amble emergency med kits — code {CODE}"

2. 2–3 hero kits matched to audience (not all 8)
3. Price anchor + HSA/FSA + free shipping + no membership fee
4. How it works: intake → provider review → ship (1–2 weeks)
5. Full Rx disclaimer block
6. UTM on all CTAs: `utm_source=affiliate&utm_medium=partner&utm_campaign={partner}`

90-day scorecard

METRIC	SOURCE	RENEW IF	CUT IF
Code redemptions	Coupon report	≥ 10 in 90 days	< 3 after 4+ placements
CPA	Spend / purchases	< 35% of kit AOV	> 50% AOV
LP click → intake	GA4 / PostHog	15–25%	< 8%
Refund rate	Finance	< 5%	> 8%
Compliance	Legal review	No violations	Any Rx claim issue → pause

Compliance guardrails

- **No** "prevent/treat/cure COVID" or disease-specific fear copy
- Use **scenario language**: travel stomach, respiratory season, when care is delayed
- All ads must state: prescription only after provider consultation; not for routine or emergency care
- Confirm **Google Healthcare / Rx certification** before scaling paid traffic to partner LPs
- **Do not contact**: thesurvivalpodcast.com (PR manager exclusion)

Deprioritize / skip

SITE	WHY SKIP OR DEPRIORITIZE
SHTFplan.com	No reliable public advertising contact
PrepperWebsite.com	Ownership unclear after 2022 sale
Backdoor Survival	Site SSL issues when checked (July 2026)

SITE	WHY SKIP OR DEPRIORITIZE
Canadian Preparedness	US orders currently paused; Jase partner exists for CA
High-controversy political sites	Exec approval required (see influencer list)

Appendix A — Steve Deace host-read scripts (inbound opportunity)

Steve Deace reached out separately. These 60-second scripts are for podcast reads if that deal progresses (distinct openers for rotation on the same show).

Script 1 — Just in Case (primary)

Most families have a first-aid kit in the garage or under the sink — but that's not the same as having real emergency medications on hand when you actually need them. That's why I want you to check out Amble's Just in Case kit.

It's a physician-led emergency medication kit designed for households who want basic medical readiness before the pharmacy is closed, the urgent care line is packed, or supply chains are strained.

You complete an online intake, a licensed provider reviews whether the kit is appropriate for you, and if approved, it ships right to your door. No membership fee, transparent pricing, physician-led, and it's HSA/FSA eligible.

Go to joinamble.com/deace and use code DEACE to save \$30 on the Just in Case kit. That's joinamble.com/deace, code DEACE.

Prescription medications require provider approval. This is not a substitute for emergency care or routine medical care.

Script 2 — Panic Pack

If the last few years taught us anything, it's that waiting until a crisis hits is not a plan. Food, water, power, and protection matter, but so does medical readiness. That's where Amble's Panic Pack comes in.

The Panic Pack is Amble's flagship emergency prescription med kit, built for people who take preparedness seriously: families, rural households, off-grid folks, and anyone who wants a deeper medical backup plan when care may be delayed or pharmacies may not be easy to access.

You complete an online intake, a licensed provider reviews your information, and if approved, the kit ships to your door. No membership fee, physician-led process, HSA/FSA eligible.

Go to joinamble.com/deace and use code DEACE to save \$45 on the Panic Pack.

Prescription medications require provider approval. This does not replace emergency care or your regular doctor.

Script 3 — Ouch Pouch

Most people have bandages, gauze, and maybe a basic first-aid kit. But if you're away from quick medical care, that may not be enough. Amble's Ouch Pouch is built for those moments when an injury, wound, bite, allergic reaction, or field emergency happens and you need more than a drugstore kit.

It's a physician-led prescription emergency kit designed for practical readiness: hunters, ranchers, rural families, travelers, and anyone who wants a stronger medical backup plan. You complete an online intake, a licensed provider reviews whether it's appropriate, and if approved, it ships to your door.

Go to joinamble.com/deace and use code DEACE to save \$35 on the Ouch Pouch.

Prescription medications require provider approval. This is not a substitute for calling 911, emergency care, or routine medical treatment.

Appendix B — How this fits the broader outreach program

- **Podcast/YouTube list:** [45 influencer targets](#) (rows 32–76 on Survival List) — anchor reach + host reads
- **This report:** 20 website/store affiliates — faster tests, SEO placements, commerce partnerships
- **Recommended mix:** 2–3 anchor podcast deals + parallel affiliate tests on 8–10 sites from this list
- **Booked calls (podcast batch):** Ted Nugent, MeatEater, Expedition Overland, SiriusXM — see influencer report pipeline section

Team workflow

1. Import CSV into Survival List or CRM; add **Outreach Status** column values: Not contacted · Emailed · Call booked · Active · Declined
2. Week 1: Send Email 1 to top 10 contacts above
3. Week 2: Follow-up (Email 2) + apply to Survival Frog / Prepared Bee / Practical Preppers affiliate portals
4. Before any placement goes live: LP live, unique code created, Rx disclaimer approved, conversion tracking with `partner_code`
5. Day 90: Run scorecard; renew winners, cut underperformers
