

Join Amble

Typosquat funnel evidence (FDA / trademark)

Organization: **Join Amble** · joinamble.com

Captured: **2026-08-21**

Live typosquats: **7** · Same network: **Yes**

Evidence pack: [context/analysis/copycat-domains-2026-08-21/](#) · Screenshots: [created/reports/20260821_ambel-typosquat-funnel-assets/](#) · Full write-up: [EVIDENCE-REPORT.md](#)

FDA / brand finding: The letter naming “**Ambel**” maps to the typosquat **joinambel.com**, which is *not* Amble Health. All seven misspellings of [joinamble](#) redirect into one affiliate funnel: **GoWeightLoss** ([my-weight-loss.com](#)) → tracker [miamitrk.com](#) → seller **InstaRX** ([go.instarx.com](#)). Legitimate Amble remains only at <https://joinamble.com/>.

The funnel (proved live today)

```
Misspelled domain (e.g. joinambel.com)
|
▼ 301 redirect
my-weight-loss.com branded GoWeightLoss
|
▼ CTA click
miamitrk.com affiliate a=14821
|
▼ 302 redirect
InstaRX: https://go.instarx.com/start-glp1
patientcare@instarx.com · (866) 673-8730
```

joinamble.com is not in this chain. It is a separate company and site.

Relationship of domains

LAYER	DOMAINS / URLS	ROLE
Entry (typosquat)	joinambel.com, joinamle.com, joinambl.com, joinanble.com, joinamblee.com, joiamble.com, joinamble.co	Steal <code>joinamble</code> typo / trademark traffic
Shared LP	my-weight-loss.com (branded GoWeightLoss)	Same advertorial page for all 7 typosquats
Tracker	miamitrk.com (<code>a=14821</code> , offer <code>c=175082</code>)	Affiliate hop after CTA
Seller	go.instarx.com (InstaRX)	Actual GLP-1 merchant — not Amble
Legitimate	joinamble.com (Amble Health)	Control — not part of this funnel

Same-network proof (all seven typosquats):

- Identical landing HTML after redirect (normalized SHA256 match across all saved pages)
- Same page brand: **GoWeightLoss** · footer “Copyright © GoWeightLoss 2025”
- Same CTA pattern: `href.li` → `miamitrk.com/?a=14821&c=175082&s1=wloss#####`
- Same Clicky analytics ID: `101495572`
- Only difference per domain: the `tk=wloss#####` / `s1=` sub-affiliate tag
- Same final merchant after CTA: **InstaRX** (`utm_campaign=14821`)

Video evidence (Loom)

Screen recordings of each typosquat funnel. Add new Looms to this table as they are recorded.

LABEL / DOMAIN	WHAT IT SHOWS	LOOM
joinamle.com	Typosquat entry → GoWeightLoss redirect (<code>tk=wloss10489</code>) with address bar visible	Watch Loom
Additional typosquats (multi-domain)	Screen recording covering more joinamble misspellings / same-network redirects with address bar visible	Watch Loom

Recording checklist — open these with address bar visible

Control (Join Amble)

<https://joinamble.com/>

Priority for the FDA letter ("Ambel")

<http://joinambel.com> → `.../semaglutide/?tk=wloss10749`

Same network

- <http://joinamle.com> → `tk=wloss10489`
- <http://joinambl.com> → `tk=wloss10614`
- <http://joinanble.com> → `tk=wloss10616`
- <http://joinamblee.com> → `tk=wloss10747`
- <http://joiamble.com> → `tk=wloss10488`
- <http://joinamble.co> → `tk=wloss11066`

Shared LP + seller

- <https://www.my-weight-loss.com/semaglutide/?tk=wloss10749>
- Click any **"80% off Semaglutide"** CTA
- <https://go.instarx.com/start-glp1>

Loom tip: Keep the browser address bar visible on every clip. After each typosquat opens, the bar should flip from the misspelled domain to `https://www.my-weight-loss.com/semaglutide/?tk=...`. Screenshots in this report include a chrome address-bar overlay showing *Opened / typed* vs *address bar now* for the same reason.
