Survival kits — competitor research & Google Ads strategy

Client: **Amble** Date: **2026-06-15** Vertical: **Telehealth Rx kits** Scope: **8 med kits**

[← All Amble reports](#)

AMBLE KIT RANGE

\$285–\$945

8 scenario-specific SKUs

PRIMARY PAID RIVALS

Jase + TWC

Own Search & Shopping
carousels

LAUNCH FIRST

Just in Case

Then Mayday travel kit

TARGET CPA (KITS)

15–25%

Of kit AOV — not GLP-1 \$50

Executive summary

Amble's survival kits compete in the **prescription telehealth emergency-preparedness** category — not OTC first aid. Closest Google Ads competitors are **Jase Medical**, **The Wellness Company (TWC)**, **OZIO**, **Runway Health**, **JetSet Meds**, **Wandr**, **ReadyMed**, and **Heads Up Medical**. These brands dominate Search text ads and Shopping product carousels on queries like *emergency antibiotic kit*, *travel emergency medical kit*, and *travel medicine kit online doctor*.

Do not treat Shopping as generic first aid. The carousel mixes Rx kits with Adventure Medical and MyMedic OTC products (\$33–\$250). Segment by intent and use feed

titles that signal physician-prescribed emergency medications.

Jase and TWC are the paid-search gatekeepers. Amble pricing is competitive with Jase Case (\$290) and TWC Travel (\$275) but above travel entrants (Runway à la carte, Wandr \$199–\$224, JetSet Weekender \$195).

Scenario-specific kits are Amble’s edge. Eight use-case LPs map to long-tail Search — if LPs are fixed and Google Rx certification is confirmed. Before scaling: fix empty “What’s included” sections, replace NAD+ testimonials, and set kit-specific conversion values (\$285–\$945 AOV).

Amble product portfolio

KIT	PRICE	POSITIONING	LP PATH
Just in Case	\$285	General emergency — 9 Rx meds	/medkits/just-in-case-kit
Mayday	\$325	Travel emergency	/medkits/mayday-kit
Viral Ick	\$325	Viral infections + nebulizer	/medkits/viral-ick-kit
Cold Reaper	\$325	Cold & immunity	/medkits/cold-reaper-kit
Breathe Easy	\$325	Mold & allergy	/medkits/breathe-easy-kit
Oh Sh*t	\$345	Radiation preparedness	/medkits/oh-sht-kit
Ouch Pouch	\$425	First aid + Rx	/medkits/ouch-pouch-kit
Panic Pack	\$945	Flagship field emergency	/medkits/panic-pack-kit

LP strengths & weaknesses

Strengths: HSA/FSA eligible, 100% online intake, licensed providers, free shipping, flat pricing, strong compliance blocks.

PO — Block paid scale

“What’s included” shows “No items found” on several kits

Jase and TWC win on medication transparency. Fix Webflow CMS before driving traffic.

P0 — Message match

Testimonials reference NAD+ / weight loss, not med kits

Undermines trust for emergency-medicine buyers arriving from Search or Shopping.

P1 — CRO

“Get started” CTA without price anchor or kit comparison

Competitors use “Add to cart” with visible SKU pricing. Test price-above-fold and kit selector.

Competitive landscape

Tier 1 — Direct Rx kit competitors

COMPETITOR	HERO SKU	PRICE	GOOGLE PRESENCE
Jase Medical	JaseCase	\$289.95	DOMINANT Shopping + Search; CTV
The Wellness Company	Travel Emergency Kit	\$247–\$275	HEAVY SEARCH comparison ads
OZIO	Basic Emergency Kit	\$197.55	SHOPPING tiered line to \$1,344
ReadyMed	Travel Pack	\$279	ORGANIC / AFFILIATE
Heads Up Medical	Adult Travel Kit	\$279.95	ORGANIC scenario kits \$80–\$299

Tier 2 — Travel telehealth (overlapping keywords)

COMPETITOR	MODEL	PRICE	GOOGLE PRESENCE
Runway Health	Build-your-kit + \$30 consult	Meds \$29–\$129	“Travel Meds, No Hassle”
Wandr	Destination-personalized kit	\$199–\$224	Physician-founded; pharmacy pickup
JetSet Meds	Weekender / JetSet	\$195 / \$495	Organic; 24/7 physician chat
TravelMeds2Go	Consult → pharmacy pickup	Consult fee	“Prescription in 24 Hrs”
Prepare Medical	Modular kits	~\$350 USD	Organic “prepare medical kit”

Tier 3 — OTC noise (exclude from Rx campaigns)

Adventure Medical Kits (\$33–\$180), MyMedic (\$127–\$1,200), PrepEM Wild (\$90–\$250), Surviveware/J&J (\$10–\$60) inflate Shopping CPCs and attract wrong intent. Use aggressive negatives unless running deliberate awareness with strict filters.

Live Google Search findings (US, June 2026)

emergency antibiotic kit prescription

Shopping: Jase Case, TWC Travel Kit, Jase Go/Mission/Dental/UTI, OZIO tiers, TelyRx standalone Rx, PrepEM Wild.

Search: TWC “See Why Our Med Kit is Better”; Jase “Emergency Medications”.

Signal: Prepper + Fox-news-adjacent demand in “People also search for.”

travel emergency medical kit prescription

Search: TWC, Jase, plus Medjet/EA+ insurance bidders (watch for broad-match waste).

Shopping module: Adventure Medical, MyMedic, FSA Store OTC bundles mixed with Rx.

Action: Mayday ads must use “prescription” / “doctor-prescribed” modifiers.

travel medicine kit online doctor

Search: TravelMeds2Go, Runway Health, TWC, PlushCare bleed.

Amble angle: “Online doctor review included — kit ships free” (kit-first vs consult-first).

Google Shopping patterns

Winning title patterns

- Use case + Rx signal: “Emergency Antibiotic Kit – 10 Essential Rx Meds...”
- Physician trust: “Doctor-Prescribed”, “Physician Prescribed”
- Scope: “30+ Conditions”, “Traveler’s Diarrhea”, “UTI”, “Dental”

Price bands (Rx kits in carousel)

TIER	RANGE	EXAMPLES
Entry	\$130–\$200	Jase Go, OZIO Basic, JetSet Weekender
Core	\$250–\$350	Jase Case, TWC, Amble Just in Case / Mayday
Premium	\$380–\$650	Jase Mission, JaseMedic
Ultra	\$945–\$1,344	Amble Panic Pack, OZIO Pro

Competitor landing page teardown

COMPETITOR	MERCHANDISING	TRUST	AMBLE COUNTER
Jase	SKU grid, Add to cart	1,695+ reviews, 4.9★, JasePlus	8 scenario kits vs one general case
TWC	Comparison tables vs others	LegitScript, subscription -10%	Build factual comparison LP; conquest brand
Runway	À la carte \$29–\$129 + consult	Travel Insured partnership	“One kit, pre-selected — no guesswork”
OZIO	Good/better/best tiers	With/without kit copy	100k+ patients + scenario naming

Google Ads policy

Certification required

Prescription drug services policy applies to all med kit campaigns

Confirm Google healthcare certification scope. Avoid drug generic names in ad copy — use condition-based language. Violations are egregious (suspension risk). [Policy reference](#)

- 1. Confirm certification for prescription drug services (separate from GLP-1 if needed).
- 2. Confirm LegitScript or equivalent (TWC displays prominently).
- 3. Use condition-based copy, not azithromycin/doxycycline in headlines.
- 4. LP disclaimers are strong — maintain on all kit pages.

Recommended campaign structure

Account: Amble Med Kits (separate shell or strict budget cap vs GLP-1)

- └ Brand – Amble Med Kits
- └ NB – Core Preparedness [Search] → Just in Case, Panic Pack
- └ NB – Travel [Search + Shopping] → Mayday
- └ NB – Seasonal / Scenario [Search] → Cold Reaper, Viral Ick, Breathe Easy, Ouch Pouch,
- └ Competitor [Search] → Jase, TWC, Runway, OZIO, JetSet, ReadyMed
- └ Shopping – Rx Kits Only → 8 SKUs, OTC negatives
- └ Discovery/Test [PMax or Demand Gen] → scenario creative, travel windows

Budget: Allocate 20–30% of incremental budget for first 60 days. Scale when kit CPA < 25–35% of kit AOV. Do not reuse GLP-1 Target CPA (\$50).

Keyword strategy by kit

KIT	PRIORITY KEYWORDS	COMPETITOR MATCH
Just in Case	emergency antibiotic kit, prescription emergency kit, prepper antibiotic kit	Jase Case, OZIO Basic
Mayday	travel emergency kit prescription, travel medical kit antibiotics	TWC, Jase Go, JetSet
Viral Ick / Cold Reaper	antiviral emergency kit, cold flu prescription kit	Own the niche
Breathe Easy	mold allergy medication kit, allergy asthma emergency kit	Heads Up Pollen Free
Oh Sh*t	radiation emergency kit, nuclear preparedness meds	Low volume — tight cap
Ouch Pouch	prescription first aid kit, emergency wound infection kit	MyMedic (add "prescription")
Panic Pack	comprehensive emergency medical kit prescription, off grid medical kit	Jase Max, OZIO Pro

Account-level negatives: bandage, gauze, tourniquet, IFAK, trauma kit (except Ouch Pouch AG), DIY, nursing, veterinary, wholesale, military surplus.

Ad copy frameworks (RSA)

CAMPAIGN	HEADLINES	DESCRIPTIONS
Just in Case	Emergency Antibiotic Kit Online · Prescribed By a Licensed Provider · 9 Rx Meds — One Flat Price	HSA/FSA eligible. Free shipping. Online intake, meds shipped to your door. · From \$285.
Mayday	Travel Emergency Kit — Rx Meds · Doctor Review Included · Mayday Kit For Travel Illness	Infections, nausea, altitude & more. 100% online. No hidden fees.
Competitor	Prescription Emergency Med Kits · Scenario-Specific Kits · Travel, Viral, Allergy & More	Amble kits from \$285. HSA/FSA eligible. Licensed providers. Get started online.

LP & CRO priorities

PRIORITY	ISSUE	RECOMMENDATION
P0	Empty “What’s included”	Fix Webflow CMS — list all meds/supplies
P0	NAD+ testimonials	Med-kit social proof or clinician badges
P1	No kit comparison	“Which kit is right for me?” quiz or table
P1	Weak CTA	Price anchor + “See what’s included”
P2	Kit overlap	Clarify Mayday vs Just in Case positioning
P2	Competitor traffic	TWC-style comparison page

Measurement & economics

METRIC	GLP-1 (CURRENT)	MED KITS (RECOMMENDED)
AOV	~\$200	\$285–\$945 (dynamic values per SKU)
Target CPA	\$50	15–25% of kit AOV (\$43–\$236)
Micro-conversions	Begin checkout	Intake started, intake completed
Conversion lag	14 days	Same — exclude recent data from bid decisions

Kit launch priority

PRIORITY	KIT	RATIONALE
1	Just in Case	Direct Jase Case competitor; highest category volume
2	Mayday	Travel query overlap; clear LP
3	Cold Reaper / Viral Ick	Seasonal Q4–Q1; less SKU competition
4	Ouch Pouch	Rx + first aid; strict Shopping negatives
5	Breathe Easy	Allergy/mold niche
6	Panic Pack	High AOV; prepper/high-intent
7	Oh Sh*t	Niche; policy sensitivity — test carefully

How to market on Google — action list

1. Treat med kits as a **new product line** with separate conversion values and CPA targets.
2. Lead with Search + Shopping on Rx-intent keywords; use eight scenario LPs for message match.
3. Fix LP content bugs and testimonials before scaling spend.
4. Confirm healthcare certification; build Shopping feed with scenario-specific titles.
5. Launch **Just in Case + Mayday** first; expand seasonal; conquest Jase/TWC/Runway.
6. Exclude OTC first-aid intent from kit campaigns.
7. Model unit economics per SKU — Panic Pack can absorb \$150+ CPA; Just in Case needs tighter efficiency.
