Executive summary

This report extends the **existing GLP TikTok affiliate source list** with **18 lookalike creators** for Gimme Care's compounded semaglutide/tirzepatide affiliate program. Research pulled public TikTok profile stats and top-video snapshots where accessible (2026-06-25).

Ranking method: Outreach priority uses weighted engagement on the best available video snapshot: **views (4×) → likes (3×) → comments (2×) → shares (1×)**, then multiplied by content-fit score (1–5) for GLP-1 journey / mom-lifestyle / nurse-educator alignment. **Saves were skipped** — not reliably public on TikTok. Creators without capturable video metrics are ranked lower and marked *profile only*.

Top 5 outreach this week: @itsmekelsc · @bossfidence · @mrskariclarck · @chargenursekeasha · @dmfkim

Patterns from existing top affiliates

- **Engagement beats follower count** — @kekes.plot (195K followers, 20.4M profile likes) and @nfield94 set the benchmark.
- **Journey + check-in format wins** — weekly weigh-ins, shot-day updates, what-I-eat-on-GLP (Ana, Johanna, Lily).
- **Polished but authentic** — clean camera/lighting with relatable mom/lifestyle framing outperforms low-quality video.
- **Inquisitive comments** — ideal audiences ask dosage, food, and side-effect questions (not spam).
- **Nurse/medical credibility** — Lily (@lilianimariee) and nurse educators convert trust efficiently.

Section 1 — Existing influencers (source sheet)

From the [GLP influencer Google Sheet](#). Video-level metrics were not capturable for most profiles in this pull (TikTok limits public video lists); profile followers/likes shown.

NAME	HANDLE	EMAIL	FOLLOWERS	PROFILE LIKES	VIEWS	LIKES

Outreach playbook

Offer framing (Gimme Care)

- **Hook:** Compounded semaglutide from **\$130/mo** (3-mo prepay) · tirzepatide from **\$163/mo** — HSA/FSA eligible.
- **Unique code + co-branded intake URL:** `intake.gimme.care/wl/intro?referral-campaign={handle}`
- **Creative angle:** "My weekly GLP check-in" / shot day / what I eat — mirror @theegreatestana and @kekes.plot formats.
- **Compliance:** No disease cure claims; personal journey + "consult required" disclaimers.

Email template

Subject: Gimme Care GLP-1 affiliate — @`{handle}` × compounded sema/tirz

Hi `{Name}`,

We're Gimme Care — licensed-provider compounded GLP-1 (semaglutide & tirzepatide) with transparent pricing and HSA/FSA eligibility. Your `{journey/check-in/PCOS}` content is exactly the audience we serve.

We'd love to offer: unique referral link, `{X}` off first order for your audience, and ready-to-post talking points.

Open to a quick call this week?

Data limitations

- **Saves:** Skipped per request — not consistently public.
- **Video metrics:** Snapshot of one high-performing/recent video per creator where capturable; not a full channel average.
- **@dawnsdailylife:** Audience controls blocked public metrics.
- **Competitor conflicts:** @hopiedopiee1 and @mylittlelovenest currently promote Amble — still strong lookalikes.
